PROFILE

I am 25 years old, and currently a Senior Software Developer at Mattersight. I have been married to my wife Danica, and we recently had our first child Emma. I am a hard-working, detailed programmer, looking for new opportunities to use my skills and expand my knowledge as a software engineer.

Making Responsive, and interactive websites has been a passion of mine since a very young age. Every new web application I make, my goal is to make sure it is better than the last. I would love the opportunity to work, learn, and gain more knowledge and experience at your organization.

Thank you for taking the time to consider me for the open position.

EXPERIENCE

Mattersight
Apr 2018 – Present

Senior Software Developer
I currently work on a team with goals to improve and maintain a large-scale web application. I had the opportunity to work on major projects that improved the functionality and performance of the product. I worked as a full stack developer, with responsibilities that scaled from frontend to backend, and database management.

Mattersight
Jun 2017 – Apr 2018

Software Developer
I currently work on a team with goals to improve and maintain a large-scale web application. I had the opportunity to work on major projects that improved the functionality and performance of the product. I worked as a full stack developer, with responsibilities that scaled from frontend to backend, and database management.

Elevation Church
Feb 2017 – Jun 2017

Web Application Developer (contract position)
Built and maintained a social media like mobile application for staff to track fitness, nutrition, and bible studies. Users have the ability post achievements, add profile pictures, and comment on posts. I built using the Laravel PHP framework with a MySQL backend. I used HTML, CSS, and JQuery for the front-end development.
