PROFILE

I am 25 years old, and currently a Senior Software Developer at Mattersight. I have been married to my wife Danica, and we recently had our first child Emma. I am a hard-working, detailed programmer, looking for new opportunities to use my skills and expand my knowledge as a software engineer.

Making Responsive, and interactive websites has been a passion of mine since a very young age. Every new web application I make, my goal is to make sure it is better than the last. I would love the opportunity to speak further about the open position, to know if the skills I have can benefit your organization.

Thank you for taking the time to consider me for the open position.

EXPERIENCE

Mattersight
Jun 2017 – Present

Software Developer
I currently work on a team with goals to improve and maintain a large-scale web application. I have had the opportunity to work on major projects that improved the functionality and performance of the product. I worked as a full stack developer, with responsibilities that scaled from frontend to backend, and database management.

Elevation Church
Feb 2017 – Jun 2017

Web Application Developer (contract position)
Built and maintained a social media like mobile application for staff to track fitness, nutrition, and bible studies. Users have the ability post achievements, add profile pictures, and comment on posts. I built using the Laravel PHP framework with a MySQL backend. I used HTML, CSS, and JQuery for the front-end development.
